**Action Taken Report on Feedback Received****Academic Year 2021-22**

Students and staff reported learning loss after COVID, asking for remedial classes and more campus activities to rebuild engagement. Parents and faculty noted gaps in practical sessions and lab access. Admissions/administration feedback highlighted the need for clearer processes and quicker certificate issuance.

Academic Year 2022-23

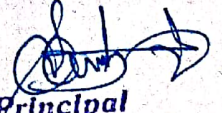

Stakeholders asked for stronger placement support, short industry-aligned certificate courses, and easy digital access to study materials. Faculty requested ongoing training in blended pedagogy and simple digital tools. Library users sought more e-resources and streamlined membership procedures.

Academic Year 2023-24

Students and alumni highlighted the need for structured internships, better mentorship during projects, and increased practical lab hours. Campus safety and signage, plus quicker maintenance of classroom facilities, were raised as concerns. Demand grew for regular counselling and career guidance clinics.

Academic Year 2024-25

Stakeholders requested more industry-linked skill programmes and transparent follow-up on feedback actions. There were calls for pilot digital internal assessments and improved mental-health support. Users also emphasised continued expansion of e-learning resources and visible publication of Action Taken Reports.
